Mit College Of Railway Engineering And Research
Barshi

08/2022 - 08/2026

8.9 CGPA

Courses

- AI / ML
- App Development
- Web Development
- Databases

PROJECTS

BloodBond : The Blood Tracker (06/2024 - Present)

- Implemented my learnings to develop a seamless and efficient server to track the donated blood. This project would help to maintain a **transparency** in the whole process from blood donation till the it reaches the needy.
- Doners can check their past donation history and will able to get notified by the donation camps to be held near by.

SecureFIR (07/2024 - Present)

- Developed an innovative web application that empowers users to register complaints or FIRs against authorities or individuals anonymously, ensuring their identity remains protected. The platform offers a secure way to report issues **without fear of exposure**

WORK EXPERIENCE

Web Developer Intern (Remote)

OctaNet Pvt. Ltd.

12/2023 - 01/2024

This company works on frontend projects from various clients and provide students the opportunities to experience the industry standards and working

Achievements/Tasks

- **Role:** As a Web Development Intern, I played a pivotal role in designing and implementing dynamic and responsive web pages, leveraging HTML, CSS, and JavaScript to enhance user experience and engagement .
- **Recognition:** Recognized by the team for exceptional problem-solving skills and a proactive approach to tackling challenges. Got appreciated by one of the senior developer for enthusiasm during internship.
- **Project Leadership:** Led a mini-project to revamp the company's landing page, resulting in a 15% boost in user retention !
